ProLife Alliance Petition against pro-abortion advertising

We, the undersigned petition the Prime Minister to reject any attempt to allow abortion services (including the morning after pill) to advertise on television or radio as recommended in the current Broadcasting Committee of Advertising Practice public consultation and we urge all concerned citizens to sign the petition below and submit their opposition to the consultation which closes at 5pm on the 19 June 2009. For more information see http://prolife.org.uk/pro-abortion-advertising-universally-condemned/

Abortion, which takes the life of an unborn child, is not a consumer product, and remains, subject to specific exemptions, illegal under the terms of the Abortion Act. Abortion is not a legitimate subject for a TV or radio advertisement. In addition, abortion has serious implications for women's health and the psychological and physical impact of abortion should not be trivialised by advertisements. Given the widespread opposition to abortion, and the fact that pro-abortion organisations do not offer positive support to help women continue with their pregnancies, they should not be able to advertise on either radio or TV. It is of particular concern that young children, below the age of consent, would be exposed to advertisements of this nature.
